Professional Training and Capacity Building

Continuous professional development combined with active organization, moderation, and facilitation of professional training initiatives.

In addition to pursuing ongoing personal professional training, I organize and facilitate FIDIC-certified training programs, professional development courses, and study tours for infrastructure sector specialists.

More than 600 professionals from government institutions, engineering companies, and contracting organizations participated in FIDIC training programs and international study tours organized under my coordination in Uzbekistan, Kazakhstan, Tajikistan, and Georgia.

Key training programs and initiatives include:

FIDIC Certified Trainings

International Study Tours and Professional Training Programs for infrastructure specialists (Georgia)

Construction Project Management Courses and Road Construction Supervision Service Training

Programs implemented in cooperation with the Ministry of Transport of Uzbekistan with financial support from the World Bank.
